Policy Statement

Policing is a critical public service, and an expensive one for the taxpayer. Financial resources must be treated with great respect and diligence, and the potential for efficiencies examined continually.

It is the policy of the Durham Regional Police Services Board that policing shall be provided at a competitive cost, relative to the following similar communities in Ontario:

- Halton,
- Hamilton,
- Niagara
- Ottawa,
- Peel,
- Toronto,
- Waterloo, and
- York.

Reporting

The following measures will be considered in an assessment of policing costs:

- Cost per police officer
- Cost per police member (officers and civilians)
- Cost per capita

The Chief shall report annually on this policy.

Chief's Interpretation:

It is my interpretation that the Board End of Costs of Police Services is directly related to 4 (1) and 4 (3) of the *Police Services Act* which imposes a duty on municipalities to provide adequate and effective police services in accordance with its needs, and the associated infrastructure and administration necessary for providing such services.

It is my interpretation that the Board, in developing the three year business plan will take into consideration the costs of providing those essential services as outlined in Sec 4 (2) and 4 (3) of the *PSA*, and the budgeted costs associated with other services or programs that are deemed to be within the purview of the Service. The Service is required to examine the potential for efficiencies as part of the business planning and budgeting process.

It is my interpretation that assessing cost competitiveness in policing involves annual reporting in relation to cost per capita, cost per police member (civilian and sworn) and cost per police officer. These measures will be derived from the Ontario Municipal Benchmarking Initiative (OMBI) reports which provide historical reporting based a standard methodology for all municipal contributors.

It is my interpretation that a competitive cost is one which is similar in quantity to the comparator services and/or to the average of those services.

Data in Support:

The Ontario Municipal Benchmarking Initiative (OMBI) is a voluntary organization sponsored by the Chief Administrative Officers of a number of Ontario Municipalities in which the Region of Durham is an active participant. Police Services are represented on an OMBI Expert Panel which reviews and advises on performance measures to be compiled, compared and analyzed to aid in improving the provision of services to the public. The OMBI data will be used to assess DRPS compliance with this Board policy.

The OMBI data for 2012 has been collected and certain of the measures collected became public in January, 2014. Cost Per Capita and Cost Per Staff Member are publicly reported. Cost Per Police Officer is not publicly reportable so individual municipal results may not be released publicly. We have presented the municipal average compared to Durham to make that comparison for this report.

Note on Comparator Group: Peel Regional Police decided not to participate in OMBI in 2010 so their results are not available for comparison for 2010, 2011 or 2012.

Cost Per Capita

1 York	\$238	\$226	\$222	\$213	\$200	
2 Halton	\$244	\$228	\$231	\$207	\$202	
3 Waterloo	\$247	\$231	\$217	\$216	\$198	
4 Durham	\$258	\$249	\$241	\$233	\$219	
5 Hamilton	\$286	\$273	\$264	\$254	\$244	
6 Niagara	\$315	\$290	\$272	\$285	\$266

8 Peel				\$235	\$225	
Average of Municipal Results	\$278	\$267	\$241	\$234	\$222	

Conclusion: Durham ranks 4th lowest in cost per capita compared to the Board's comparator group. Durham's cost per capita is 7% lower than the average. It is also worth noting that the increase in Durham's Cost Per Capita over the period shown was \$39 dollars which is the second lowest growth in the comparator group (York was the lowest at \$38). The cost per capita is therefore competitive compared to the comparator group.
